Our participation to EEE

- The Liceo Scientifico “G.Galilei” of Ancona is in EEE Project since 2015
- We have specific curricula of Informatics during the first 4 years
- Our school is participating with about 60 students to EEE monitor activities and theoretical lessons of Physics and Astrophysics.
- We are currently collaborating with the Osservatorio Astronomico of Ancona for lessons and ASL activities in the framework of the EEE project
- We projected activities with cosmic box/muon detectors

Current situation

- EEE DQM report web pages are generated by e3pipe.
- It uses the HTML 4.01 standard that is very old (1999) and was superseded on 27 March 2018.
- It doesn’t render well on small screens (i.e. smartphone): very small text.

Proposed changes

- Upgrade to HTML5, current W3C Recommendation.
- Responsive web design: automatically adapts page content to the screen sizes.
- Pull Request #87 (centrofermi/e3pipe)

HTML5

- No visual changes (excluding the footer).
- Prerequisite for responsive design.

What’s next?

- Make the same upgrades to e3monitor.
- Add a troubleshooter to e3pipe.

Thank you for your attention.
