

Piedmont

Status of telescopes

AM 2017 07 12

TORI-01 – Giordano Bruno

Status: working

Problems: Low rate (10-30 Hz) + high currents
→ next year clima installation + washing the chambers

HW needed: if possible since we have a Hytech GPS....

TORI-02 – Alessandro Volta

Status: switched off because of trigger card

Problems:

→ trigger card
→ possible problem on one TDC 64 bit (to be checked)

IMPORTANT for NEXT RUN for triple coincidences with TORI-03-04

TORI-03 – Galileo Ferraris

Status: working

No Problems

Clima installed

TORI-04 – Massimo D'Azeglio

Status: working

No Problems

Clima installed

TORI-05 – Gobetti Segrè / Dip Fisica

Status: to be installed in September

TDCs/V1718/crate/structure/LV-HV
cabling/gas pipes/gas bottles/PC
purchased by INFN Turin

Needed:

Data cables, trigger card + GPS

Next week the online datasheet will be filled
